Thomas Paul is back with exquisite designs, striking patterns, and brand new rugs that are sure to set your home apart from all the rest.

Thomas' unique colors and innovative designs offer his customers true value. Chandra's ability to facilitate a production of area rugs that are not only high quality, but also at a cost effective level also offer their customers value.

By combining the strengths of both entities, we create a perfect brand that allows functionality with broad individual tastes.

Thomas' concept is simple. The design concept is to mix unrelated historic design styles -- art nouveau, 60's pop art, 70's minimalism, 18th century baroque -- and reinterpret these disparate periods into a unique style with a coordinated color palette that works with today's interiors. Price points are accessible to attract a stylish and design driven youth.

The rugs featured in this collection all have a common trait; they all share high quality wool with the finest construction available. Both the tufted pile and the woven dhurries are created using New Zealand wool which is considered to be the most premium level wool that combines the maximum sheen with the highest longevity.

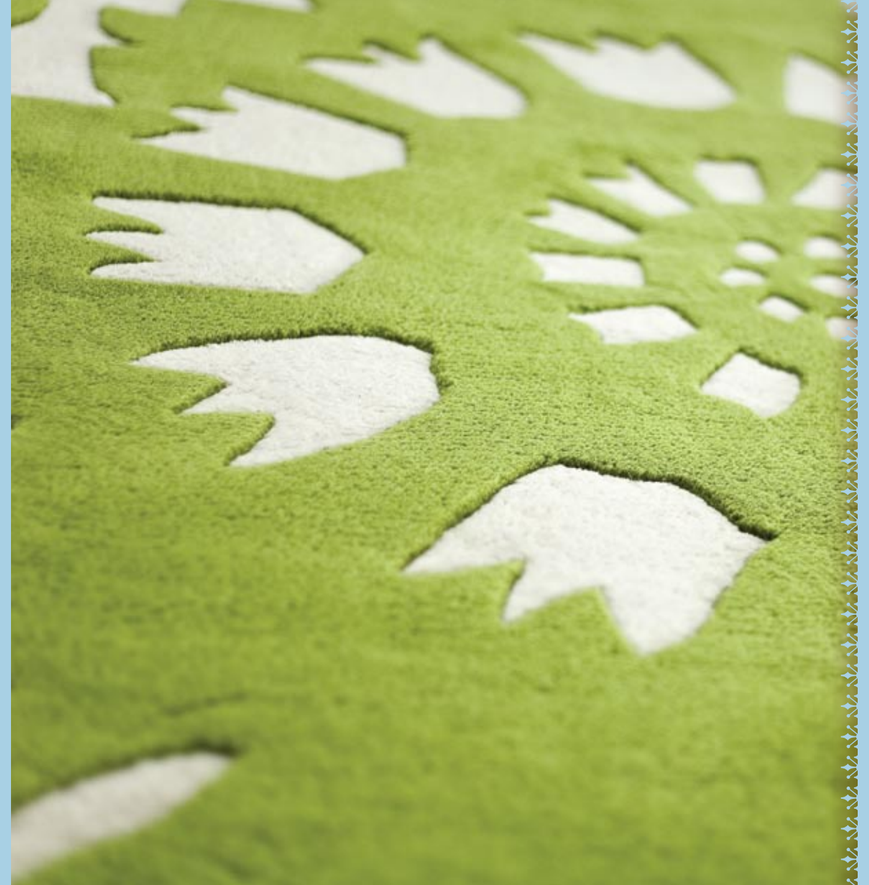
Efforts in giving you the very best can be easily seen or even felt by touching the three-ply wool used in the dhurrie.

At Chandra, rugs are not only our specialty, they're our passion. We are committed to promoting the tradition and culture of the handmade Indian rug, while defining a new era in design. We look back for inspiration, and look forward to bringing you the most beautiful rugs you've seen yet.

With a wide range of colors, patterns, and qualities to choose from, you are sure to find the right rug to fit your room.

Enjoy!

CHANDRA



tufted pile
COLLECTION

It takes three men one full day to hand-carve a 5'x8' Damask rug using only their hands, a few tools, and a pair of long metal scissors.

When we say

“HAND MADE IN INDIA”

we mean it.

terms & conditions

some difference in color, size, or shape is consistent with the nature of a handmade product and does not reflect a defect in the product.

shedding is part of the natural wear-in process and is also a characteristic of fine wool.

orders prepay by check or credit card until credit terms are established
some sizes were rounded up for the sake of ease (e.i. 5'x7'6 is 5'x8') please take note.

see price list for full list of terms and conditions before placing order.
